VOL. 13, NUMBER 279 MONESSEN, PA., FRIDAY, MAY 7, 1915 SIX CENTS THE WEEK

VIEWERS REPORT IN HUNTER CASE SUSTAINED

After three days of trial the damage suit against the borough of Monessen instituted by W. D. Hunter came to an end.

Dr. Hunter sued for $3,000 damages to his residence property, Reed avenue and Sixth street, which he claimed as a result of cutting the street in order to establish grades. The property is a corner, curbed and paved all around it. The borough entered street assessments to the amount of $558.00. The viewers appointed by the court had awarded the doctor $300 damages, which would have lowered his street assessment to $288.00, but the owner thought this was not sufficient and he took an appeal from the award of the viewers and went into court to obtain what he thought was justly due him.

The trial brought forth many witnesses from Monessen, a number of whom are in the real estate business, also some former councilmen and employes of the borough. J. F. Irwin, engineer for the borough at the time the street grades were made, was a leading witness. In the line of evidence there were many dissenting opinions as to the amount of damage that was due the plaintiff. Some fixed it at $2,500, while others could hardly see that there was any damage.

In order that the jury might become more familiar with the premises and the evidence that was to be submitted, a trip was made by the twelve men, engineers and attorneys to the grounds. The case was hard fought from start to finish. Wyant and Robbins were defending the borough, while John E. Kunkle appeared for the plaintiff.

What made the situation more complicated was the fact that Dr. Hunter is a member of council and was examined on the witness stand by City Solicitor Wyant, who now holds his position as solicitor by the vote of council. It was an embarrasing situation, but the fight was made purely on legal questions and the big solicitor threw in the pungent stuff where it was necessary and made his characteristic fight.

The verdict in favor of Dr. Hunter was held just where the viewers placed damage, $300. This throws the costs on Dr. Hunter and it is claimed they will amount to approximately $300. Dr. Hunter according to the culmination of the suit owes the borough $288.00 which settles his street assessment in full. It is understood that an attempt will be made to get a new trial, but this was not verified.

Local Optionist Is Half Shot

Alderman Cassius W. Ranney, a well known politician and strong local option adherent, shot and seriously wounded himself in his own office in New Castle yesterday afternoon while hearing a case. He excused himself in the midst of the testimony, walked into an adjoining room and fired a bullet into his head. He only half shot himself and will recover. Friends claim the defeat of the local option bill caused the man to commit the rash act.

Boy Likely Will Be Sent to Morganza

Joe Sorge and George Hazard, the two seven year old boys arrested on a charge of larceny were given a hearing last evening before Squire Watkins. The Hazard boy was allowed to go home pending a settlement of his case by his father. The Sorge boy will be sent to Greensburg where he will be arraigned before the juvenile court. He is charged with incorrigibility and will likely end at Morganza or some other reformatory.

ANNUAL AMERICAN PEACE SOCIETY MEETING TODAY

Washington, D. C., May 7—The 87th annual meeting of the American Peace society will be held today at the Hotel Raleigh. Many prominent peace advocates from all sections of the country have arrived for the meeting, and many local societies in the various states are represented. U. S. Senator Theodore E. Burton of Ohio, president of the society, will preside. A general secretary will be elected to succeed Dr. Benjamin Trueblood.

TRUST COMPANY OFFICIALS DINE HERE TONIGHT

New York, May 7—The annual banquet of representatives of trust companies throughout the United States will take place here tonight. Leaders in the banking world will speak to the heads of trust companies and other banks and guests will include men prominent in the business life of the country. The inauguration of the new currency system, the growth of foreign credit and loans, and many other subjects of interest at this time will be discussed.

PAVING OFFICIALS TO BE SENTENCED TODAY

Trenton, N J., May 7—George M. Brewster and Walter Scott, officials of a paving concern of Hackensack, N. J., will be sentenced today by Judge Marshall for ignoring subpoenas to testify before the joint committee on on appropriations of the Legislature of 1914 at the road investigation last December. The two men were found guilty by a jury on April 27, ten minutes after receiving the case. An appeal will be taken to the Supreme court. It is claimed by the two paving officials that they kept away from the hearing on advice of counsel.

Have your U. S. A. coupons for souvenir spoons redeemed at the N. W. Schlup Co. store Saturday, sure. 1,000 additional spoons just received. 79-2t

STATE FIGHTS JURY IN FAMOUS THAW CASE

New York, May 7—Another crisis in the fight of Harry K. Thaw for freedom from the shackles of the mad house will be reached today, when arguments will be heard on the application of the State Attorney General for a restraining writ that will prevent Judge Hendrick from impaneling a jury to test the sanity of Thaw. When the writ was asked for late last month, it was planned to decide Thaw's sanity or insanity by jury. Justice Hendrich decided that he had power to call in a jury to aid him in determining this important point, and announced that he would do so. The state authorities, who are fighting to have Thaw returned to the Mattewan Asylum for the Criminal Insane, contend that the justice has no such power.

Improvements at the Connellsville Power House

Mr. G. G. Bell, mechanical engineer of the West Penn Traction company reports that the company has had a number of forced blast high speed blowers made by the Buffalo Forge coupled to Westinghouse steam turbines, and is installing forced blast under its boilers. Under some weather conditions the draft from the 200 foot stack has not been sufficient, although the stacks are now being supplemented by these turbine driven blowers which run 2400 revolutions per minute, and each blower furnishes the air for two boilers and two blowers are driven by each of the eight steam turbines of 200 H. P. The blowers the entirely automatic and self oiling and their speed will be governed automatically so as to increase whenever there is a greater demand for steam.

These blowers are being located in the basement of the boiler room which has been deepened to 12 feet, so that they are entirely out of the way of the firemen and thus relieve the fire room of all drafts of cold air, which has been a frequent source of sickness under the old plan of hand fires.

This new forced blast power installation also leaves the boiler room entirely quiet and gives the men a better chance to scientifically handle their fires and keep the entire room more cleanly and in better shape.

This blower installation means that the company can under forced blast, work the boilers to two times higher capacity than could be done with hand fires without the blowers, and thus give the company the advantage of a large reserve in steaming capacity. They also give a quick and ready means of increasing the steam capacity when the weather suddenly becomes cloudy, which results in a large increase in the load. Sometimes under favorable conditions the load has been known to increase 8000 H. P. in 15 minutes. The blower can correct a condition of this kind in less than five minutes.

The West Penn company is making many thousands of dollars' worth of improvements in its Connellsville and Wheeling power plants to bring them up to date and increase the capacity to keep ahead of the rapidly growing load.

WIFE CLAIMS TO FEAR HER DIVORCED HUSBAND

Scouts Held Another Meeting

There was a meeting last night in council chamber of those interested in the Boy Scout movement. It was by far the most enthusiastic meeting yet held, full of interest and action. Two assistant scout masters were appointed in the perons of Mr. Ed. Fall and Mr. Marshall and they will assist Scout Master Bowes in all the work incumbent upon a master. A letter of thanks to Col. H. P. Bope was directed for his kindness in contributing the Electric park grounds for a scout home. A committe consisting of H. E. Gress. Geo. Bowes and A. N. Hood was appointed to solicit subscriptions. Funds will be raised necessary to carry on the work. A tent will be orderd at once and installed on the park grounds and the boys will be stationed in a permanent comfortable home as soon as possible.

Dave Fritz an old offender was before Burgess Dunlap this morning charged with disorderly conduct. His divorced wife was the prosecutor and while she was testifying her fourteen year old daughter stood by her side. Fritz it seems, has been giving the woman no end of uneasiness, and she fears her life, according to her testimony. She claims Fritz has not supported her in eight years and that she has not lived with him for four years. She says for eight years he has not contributed to the support of her and the four children, and that she is forced to keep the oldest daughter out of school to help support the family. Mrs. Fritz labors wherever she can get work. She is now engaged at the Park hotel, and last night stayed at the hotel all night because she heard Fritz was looking for her. She was told that he had inquired about her in the afternoon and she was afraid to go from the hotel to her home.

Mrs. Fritz testified that she has a divorce and is supporting her children by hard work. Until this morning she hadn't looked at her former husband for about four years, she said, and was sorry she had to face him while testifying. She said he just got home from serving a sentence of six months, and that while he was locked up was the only time she was relieved from fear. The burgess fined him $5.00 and costs or three days to street labor.

Four "sleepers" were led out of their cells this morning. They were from all quarters. They plead to get off but the burgess said "nothing doing, you must all go to work." They were sentenced two days to labor on the Gnipp sewer and Mr. Frazer took them to the spot.

Auction Sale Still Going on

The auction sale down at Brenner's jewelry store is going on with vim and vigor. Caesar Casper, the eloquent auctioneer, holds his people with the magnetic force of one whose long experience in the work has trained him well for a place before the people. Daily good crowds are in attendance, and while the articles are being sold at bargain prices, it is no fault of the auctioneer, but rather the fault of the business conditions at this time.

The store was so well stocked at the start of the auction that considerable time is being used to close out the stock, but Mr. Brenner is anxious to move it as rapidly as possible in order to get away from town at the earliest possible date. Mr Casper's work will not terminate until everything has been sold and the auction will continue daily, afternoon and evening until further notice.

Master Carter Wins Debate

Mr. L. P. Carter has received a letter from his son Charles, who is in Story College at Harper's Ferry, W. Va., to the effect that the young man after winning the highest honors in the debating class of his own college was delegated to Christiansburg University to debate the winners there and that he won the debate. Master Charles claims that it was rather a close call, but that he got through all ringht. The young man's friends in Monessen will receive this bit of news with delight and his parents can also feel that he is making good in his college work.

IDENTITY RESTORED AFTER TWO YEARS' ELAPSE

Milwaukee, Wis., May 7—Two years ago today Frank Van Wie fell from the roof of a building in Milwaukee. Since that time he wandered, his identity entirely lost to him, until ten days ago, when a doctor snapped into place two small vertebrae in the back of his neck. Van Wie is now seeking the girl he was to have married on May 24, 1913, and this is the first reparation he is making since he recovered his normal mind in Kenosha on April 27. All of his past history is clear to him except the events of the past two years. He remembers the fall, and that the doctors had said he broke a rib or two.

Swat the Fly

If flies were as big as they are dangerous, they would be larger than mammoths, the huge beasts that roamed this earth in prehistoric times, destroying everything that came within their path.

You would not let a man-eating tiger have free access to your house—not if you could help it, you wouldn't. Nor would you let lions and elephants come charging from their jungle lairs into your kitchen or baby's bedroom and then merely shoo them away, saying, "Oh, they are such a bother."

Yet the common house fly is more dangerous than these most dreaded wild beasts—is, in fact the most dangerous animal on earth.

Flies slay more people than the most ferocious denizens of the jungles—because they carry disease breeding germs from sick people to well people, from impure and decayed food to pure food.

And when they do this the well person turns sick and in many cases dies, and pure food begins to decay, and then, when eaten by well people, it makes them sick and often kills them.

The fly is born in filth and grows up to be nature's scavenger and a messenger of death. In addition to the fly's two claws, each of its six feet is supplied with sticky pads. Disease germs by the thousands stick to these pads and when the fly walks over your hands or face, or the face of your baby a trail of deadly disease germs is left on the skin.

That is why you should—Swat the Fly.

Eliminate the Bosses

What Col. Roosevelt said or thinks of Barnes is of small moment to the people. What Barnes may gain or lose through forcing an action for libel is of even less importance. Yet the hearing of the case at Syracuse, is of more importance to Americans than any event of recent years.

It makes clear that there exists in the United States a large class, chiefly of the wealthy, the powerful, the corporation heads and the political leaders, who do not believe the people are competent enough to govern themselves. Anyone spending even a month in Washington will discover that this belief is deeply rooted among certain "statesmen." Baer of the Reading railroad and others have expressed the belief clearly.

The belief being sincere and deep, the logical sequence is clear. If the people are unfit to govern themselves, such believers all consider themselves the capable ones, and the annointed who shall rule. It is up to the people of the United States to prove themselves capable of self government, and the first step should be the elimination of the self appointed governors.

Sins of the Fathers

Norway has passed a law which is well worth studying—and adopting—here in these United States of America. This new statute places illegitimate children in the same class as those born in wedlock.

The illegitimate Norwegian child now has the right to take its father's name if it wishes. It now has equal right with the legitimate children in the matter of inheritance.

We Americans are handling these children far differently. We call them "nameless" and make them dependent upon a mother whom we call an "outcast" or a "fallen woman."

'Tis true we do occasionally punish the father of these children, giving him a severe slap on the wrist—a matter of $200 or $300 fine—while we at once burn the scarlet letter into the betrayed mother's forehead.

Some day we Americans will quit "visiting the sins of the fathers" upon their illegitimate children and let God Almighty attend to the punishing.

Who's Who and Why

If Colonel Roosevelt and Mr. Barnes were to be caught taking a highball together, while holding a caucus in some quiet spot, we wouldn't be much surprised.

This libel suit has given the colonel a much desired chance to get in the public eye again, at a most opportune time, and fifty thousand is cheap enough for it. We're blamed suspicious of ex-bosses of all description, anyway.

BIG DISCOVERIES OF GOLD ARE REPORTED IN ALASKA

Seattle, Wash., May 7—Untold wealth in gold, silver, copper and other ore deposits in the Susitna region in Alaska, perhaps as much as has ben produced from the mineral belts of either California or Montana, will be made available by the construction of the government railway which is now being begun. The road will open a mineralized region, now practically unexplored, that covers an area of 100 miles long by 250 miles in width. Such is the opinion of Phil Hickey, a mine operator who for the past fourteen years has been doing development work in Alaska.

The belt which Hickey describes is situated near the head of the Susitna river and extends across the country toward Knik from Mount McKinley. The outer edge of the region has been opened by William Martin of Seattle, who last year, after paying a dollar a pound for the delivery of freight to his claims, cleaned up $100,000 with a small mill. His outcome was $380,000, but a large portion of his profits was expended in freighting.

Hickey spent a year in this region prospecting, and discovered some antimony ores, some high grade quartz veins, high grade copper, and some silver lead ore. Because of the great difficulty of getting freight into the country, he abandoned his claims until transportation was made easier.

Hickey says that the Susitna district is no place for a man short of money. He must have a good outfit and be able to get away from the main river bed. The deposits lay in the hills on the sides of the Susitna. The Guggenheims optioned some property in the region last year, he says. Many claims have been taken up, but dropped because of the expense of getting working materials into the region.

Up to now it has not been a poor man's country, but Hickey declares that the railroad will give some of the poor fellows a show. A number of small plants will be ready to be rushed as sooon as the rails are laid. The big deposits should be reached and operated within a few years, he claims.

That the gold ore in the Susitna region will run as high as $5 to $6 to the ton, is the opinion of Hickey, who has had long experience in the north, and knows pay dirt when he sees it. He predicts mines will be opened that will far exceed in output the Treadwell mine in the Alaska-Gastineau district, which has produced $59,000,000 out of rock that averages two dollars to the ton.

W. S. ROBINS & CO.

Office of County Controller, Westmoreland County
Greensburg, Pa., April 30th, 1915.

Notice to Bidders

Sealed proposalse will be received at this office until 12 o'clock noon, Friday, June 4, 1915, for furnishing the necessary labor and materials for the construction and improvement of the West Newton-Suterville road in South Huntingdon and Suterville township, and Suterville Boro, Westmoreland county, Pa.

Also for the construction of a bridge along said road over the Big Sewickley Creek at the point where it empties into the Youghiogheny river.

Said road and bridge improvements to be constructed in accordance with the plans, profiles and specifications on file in the office of the Road Engineer of Westmoreland county at the Court House, Greensburg, Pa., where they may be seen.

The bid on the above mentioned road and bridge must be accompanied by separate certified check for the following amounts, $1.000.00 additional, and made payable to the Treasurer of Westmoreland county. said checks to be forfeited to the County of Westmoreland for its use in case the bidder fails or neglects to enter into a satisfactory contract and bond upon being duly notified of the award of the same.

Bidding blanks for proposals will be furnished by the County Road Engineer at his office upon request.

The right is reserved to reject any or all bids.

John S. Sell,
County Controller.

Powerful Races At Uniontown

With the elimination of all amateur events and an entry list to be composed of the cream of the professional drivers of the country, the annual automobile hill climb at Uniontown to be held the latter part of June promises to be the most interesting ever held.

Fayette county autoists have already taken the matter under consideration and careful and complete plans will have been worked out by the time the big project is in readiness for exhibition.

The races this year will be much different from previous affairs. With two years' experience behind them, the arrangement committee is in a position to improve both the standard of the racing and the accommodations for the thousands of spectators who line the course.

In the racing line, negotiations are already under way for the appearance of famous drivers from the Indianapolis speedway. Among those whom the committee hope to bring are Barney Oldfield, the speed king; Carson, Dawson and others of like fame. The peculiar stretch of highway, which perhaps is the most unique course for a hill climb in the entire country, will try the mettle of these drivers to the limit.

All types of racing cars may be entered in the various events, a complete list of which will be announced shortly. No barriers will be placed in the way of any car entering the races, the only restrictions being that they conform in piston displacement to the limitations set for the various classes.

Particular attention is to be paid this year to the seating arrangements. In the past this has been the source of complaint for many who came for miles to witness the events. A grand stand seating 4,000 is to be erected at the Turkey's Nest. The stand will give the spectators a view of the course on both sides of the Nest, and spectators may view the entire day's program without the fatigue which the lack of this accommodation usually produces.

The American Automobile association has given its sanction for the meet and arrangements have been completed whereby the road will be closed for the day. No admission will be charged to spectators on the road as far as the Turkey's Nest. Beyond that point an admission price will be asked, the fund to be used to help pay the expenses for the affair.

Manufacturers, as usual, are taking a lively interest in the meet and it will be through these industries that the autoists will be able to procure some of the speed experts.

Oil Treatment for Stomach Troubles

A simple prescription made up of a combination of pure vegetable oils is producing wonderful results for sufferers from stomach, liver and intestinal troubles. The remedy, which is said to have originated in France, where it has been used for years by the peasantry, was introduced into this country by George H. Mayr, a leading Chicago druggist, who cured himself of severe stomach, liver and intestinal troubles by its use. Those who have used it say the first dose is sufficient to convince any one of its remarkable merit, and that within twenty-four hours the sufferer feels like a new person. This medicine, which has become known as Mayr's Wonderful Remedy, is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

Honorable Joe 79 Years Today

Hon. Joseph G. Cannon, former speaker of the National House of Representatives, the veteran of politics and legislation who refuses to be retired, is 79 years old today. The Cannon smile and the long black stogie are again seen in Washington, where the eagle eye of the Illinois statesman is periscoping the Democratic strongholds for an opening that will sweep his party back into power and again present to him the gavel which he swung uninterrupted for eight years. It was a bitter battle which uprooted the veteran from his firm hold on congress. He rankled under defeat for the 63rd congress, but last November he had the pleasure of leading the "come backs" into congress. The former speaker, has had a notable career. He was born at Guilford, N. C., May 7, 1836, of Scotch and Quaker ancestry. When a boy his parents moved to Illinois, and here young Cannon was reared on a farm. He secured his education in country schools and then studied law. He worked in a grocery store until he was educated to practice. At 24 he was chosen a state's attorney in Illinois, and he held this office for seven years, when he first came to congress. It was 42 years ago that Cannon first set foot in Washington, and since that time he has served continuously, with the exception of two breaks of two years each. His firmness while chairman of the Committee on Appropriations earned for him the soubriquet of "Watch Dog of the Treasury." He was made speaker of the 58th congress and was re-elected to the office in the three succeeding congresses. In 1908 he received 58 votes for the presidential nomination in the Republican convention.

"What's your hurry?"
"My fire insurance expires at noon!"
"What company are you in?"
"I don't bother about details."
"Ever take notes from your customers?"
"Sometimes."
"Ever take a note without knowing the name of the man who made it?"
"Well, I guess not!"
"What is a note, anyway?"
"A promise to pay."
"What's a fire insurance policy?"
"I get you! A promise to pay if you have a fire."
"Exactly. You're paying good money for a promise to pay without knowing the name of the company that promises!"
"Say, what company are you in?"
"The panic-proof Hartford Fire Insurance Company. A company that has promptly settled every honest loss for 105 years.

May we show YOU a Hartford policy? Costs no more than others.

WOMAN WOULD NOT GIVE UP

Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa. — "When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache.

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound." — Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

Women Have Been Telling Women

for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.

It's a marvel of up-to-date style and hygienic ease.

It's here and ready!

WORKMAN GO ON STRIKE

Three hundred union carpenters and plasterers are idle in the different towns of the Beaver valley as a result of a strike and building operations are completely tied up. The plasterers are asking for an increase of 30 cents a day and the carpenters refuse to work because the contractors will not sign their agreement, which was to have gone into effect the first of the month. Tin workers have been idle for several weeks on account of a dispute. The contractors declare they will not take the initiative in the matter and are content to stop operations for awhile. On a few jobs non-union men have been given employment.

Construction has been stopped on the new county home building, the county jail, the new High school building at Rochester and the Y. M. C. A. building in New Brighton.

HORLICK'S

The Original MALTED MILK
